

eBuildBazaar believes that all personal & commercial construction activities and home maintenance services should be easier to access.

No need to spend hours on multiple calls with multiple vendors, only to find inconsistency and regret.

You ask, we give. You dream, we build.

eBb India started in 2023, and has been growing rapidly across the country, with Delhi/NCR as its headquarters.

We're expanding to major international markets like United States, the UK, and Australia by **2024**.

The eBB Edge

Paving A New Future
